

## *imagine* *overlocker*

Can you imagine overlocking with no tension? Welcome to the world of Baby Lock. The Imagine was the first overlocker of its kind and features innovative technology that has remained unchanged since its original release. What's more, it is still one of the best-selling overlockers on the market today.

The Imagine revolutionized the world of overlocking with exclusive features like Automatic Thread Delivery (ATD) eliminating the need for frustrating tension adjustments. This machine also features instant Jet Air Threading, tubular loopers and needle threaders, making it the easiest overlocker to thread. In fact, the Imagine can be easily threaded in under one minute.

These are just some of the many innovations featured on the Imagine overlocker. The Imagine can be used as a 4 thread, 3 thread or 2 thread machine. Designed to save you from the threading nightmares of ordinary overlockers, the Imagine will offer you more time for real sewing. Imagine that!

# imagine overlocker

#### INSTANT JET AIR THREADING:

Simply push the lever and air blows the thread through the tubular loopers! Threading loopers made easy by Baby Lock.

#### AUTOMATIC THREAD DELIVERY SYSTEM:

This system eliminates tension. It delivers a selected amount of thread to form a balanced stitch regardless of fabric or thread type. Changing stitches is as simple as ABCD.

#### TUBULAR LOOPERS:

Allow the Imagine to be threaded in any order. Threads no longer tangle as they are not exposed. No more thread guides, no more threading problems.

#### DIFFERENTIAL FEED:

A full range differential feed used for gathering and easing as well as compensating for stretch distortion of knit fabrics.

#### NEEDLE THREADER:

Thread the eye of the needle quickly and easily - a touch of a lever is all that is required.

#### IMAGINE FEATURES:

- Jet Air Threading – loopers thread in a breeze
- Automatic Thread Delivery system (ATD)
- Overlock with 2, 3, or 4 threads
- Overlock stitch functions to seam & encase fabric edges
- Flatlock stitch functions for seaming & decorative effects
- Built in needle threader
- Lock down blade system – can be used as a fabric guide when engaged
- Tubular loopers prevent thread tangling
- Vertical needle system minimizes needles deflection
- Heavy duty cutting system cuts thick fabrics with ease
- Rolled hem adjustment with just a turn of a dial
- Full range differential feed – ranging from 0.6 to 2
- Adjustable stitch width – ranging from 1.5mm to 7.5mm
- Adjustable stitch length 0.75mm – 4mm
- Easy to follow thread chart
- Snap-on multi purpose foot including ribbon & tape guide
- Optional range of accessory feet available for beading, piping, elastic, cording, gathering, etc. – 9 in total
- Built in thread cutter
- Built in accessory storage
- 1500 stitches per minute
- Needle system HAx1SP #11/75 #14/90
- 5 year conditional warranty parts and labour
- Machine weight 7.5kg
- Made in Japan

#### OPTIONAL ACCESSORIES:

- Flat sole foot
- Elasticating foot
- Piping foot 3mm
- Lace foot
- Piping foot 5mm
- Blind hem foot
- Gathering foot
- Beading foot
- Clear foot
