Overlocker

Enspire

Introducing our entry-level 4-thread overlocker with some amazing features for endless creative options, including JetAir™ Threading for instant looper threading in any order.

The Enspire, although an entry-level machine, doesn't skimp on features. As well as JetAir™ Threading, Enspire is equipped with 6mm presser foot height, a built-in needle threader, LED lighting, heavy-duty cutting system and full range differential feed with a true 2 to 1 ratio for consistent and easy gathering. A full suite of features to get you started on your overlocking creativity.

Jet
Air™
THREADING

JetAir™ Threading System for easy Looper Threading

Thread the entire machine in less than 1 minute

Change any thread without re-threading others

Easily thread the loopers in any order

No more worrying about tangled threads

JetAir™ Threading completely eliminates the annoying need to thread many points in a specific order for each broken thread or new colour. With our exclusive system, **threading can be completed in less than one minute!**

Simply insert threads into the threading ports, plunge the lever and a blast of air shoots the threads through the tubular loopers – instantly threading the loopers.

The tubular loopers also prevent the threads from tangling, and by keeping the threads completely separated within the machine, the loopers can be threaded in any order. They also allow you to change any thread without having to re-thread the others.

Micromatic Twin Cam Tension System for manually balancing stitches.

6mm Presser Foot Height allows you to easily work with thicker fabrics.

Built-in Needle Threader for easy, stress-free needle threading, every time.

Automatic Rolled Hem via a simple dial retracts the built-in stitch width finger.

2 Powerful LED Lights flood your workspace with bright and even lighting.

True 2 to 1 Differential Feed ensures more consistent gathering of fabrics and compensates for stretch distortion on your knits.

Other features

- Vertical needle system minimises needle deflection and breakages
- 4, 3 & 2 Thread overlocking
- Up to 1,500 stitches per minute
- Heavy duty cutting system for easily cutting thick fabrics
- Flatlock stitch option for seaming and decorative effects
- Presser foot pressure adjustment screw
- Built-in accessory storage
- 11 Optional accessory feet
- Machine weight 7.5kg

Unrivalled Quality, Durability & Peace of Mind
