Overlocker + Coverstitch

# Splendor

The Splendor is a versatile 8-thread combination machine that offers both overlocker and coverstitch stitches, along with a range of convenient features to let your creativity flow easier than ever.

Featuring our Automatic Thread Delivery System (ATD) for tension-free overlocking and the convenient ExtraordinAir™ Threading System that threads the loopers with just the touch of a button, Splendor is perfectly sized and packed with amazing features, making your sewing experience enjoyable.

Extraordin  
*Air*™  
THREADING

**ATD** NO TENSION  
ADJUSTMENTS

## ExtraordinAir™ Threading System for instant looper threading

ExtraordinAir™ Threading allows you to thread your overlocker in less than a minute! Simply insert threads into the threading ports, press a button and a blast of air shoots the threads through the tubular loopers – instantly threading the loopers, either individually or simultaneously.

With these tubular loopers keeping the threads completely separated within the machine, tangling is prevented, they can be threaded in any order, and any thread can be changed without having to re-thread the others.

## Automatic Thread Delivery (ATD) System

Splendor takes the tension out of overlocking by removing the need to manually adjust tensions, for a perfectly balanced stitch always. The ATD System delivers the required length of thread for a balanced stitch, rather than putting tension on the thread itself. You simply select A, B, C or D depending on the stitch desired – letting you overlock continuously across any fabric without skipping stitches.

**6mm Presser foot height** allows you to easily work with thicker fabrics.

**Convenient presser foot control** via lever or via knee lift, for keeping both hands on your sewing.

**4-Hole sewing table** allows the use of our range of innovative knit binders.

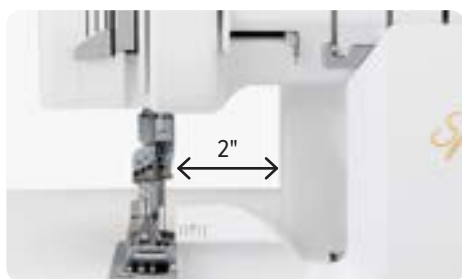

**4 Powerful LED lights** flood your workspace with bright and even lighting.

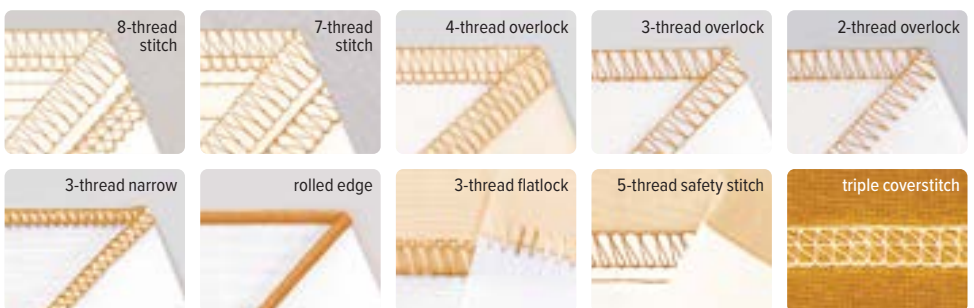

**Magnetic needle storage** on the machine top makes misplaced needles a thing of the past.

**Trim bucket** catches thread remnants, while also allowing rethreading with the bucket still in place.

**Spacious 2-inch throat space** lets you easily work on larger projects.

**Extensive stitch options** to take your projects to the next level.

## Other features

- Over 60 combined stitch options
- Vertical needle system minimises needle deflection and breakages
- 4, 3 & 2 Thread overlocking
- Coverstitch options: triple, wide (6mm), narrow (3mm) & single chain stitch
- Up to 1,500 stitches per minute
- Presser foot pressure adjustment dial
- Heavy duty cutting system easily cuts through thicker fabrics
- 16 Optional accessory feet
- 21 Optional accessory attachments
- Machine weight 12.3kg

## Unrivalled quality, durability & peace of mind

Baby Lock machines made in Japan are renowned world-wide for their outstanding innovation, technology, build quality and durability, giving us the confidence to offer you a 5 year conditional parts and labour warranty.
