BELLISSIMO

Brother's app operated, matless cutting machine. With Brother's intelligent auto blade and auto pressure setting, it's small enough to fit on your desktop.

Developed as a matless cutting machine, just load your material and let the auto blade do the work. Without a mat the Bellissimo can half or perforate cut material. You can also use a mat when you want to do full cut designs or when using specialist materials.

With Artspira's* designing power you can draw your own designs, transform using AI, convert images into cutting data, design stickers and access amazing designs to cut out right before your eyes.

POWERED BY
Artspira

*Bellissimo CT1 is powered by the Brother Artspira app, which is free to all Brother wireless embroidery, cutting, printing and sewing machine users. However, some features of the app must be purchased via the Artspira+ subscription and may be limited dependent on resident country. See in-app for more details.

★Key features

- Powered by Artspira app
- Intelligent auto blade – sets cutting depth and pressure
- Full cut, half cut and perforation cutting modes
- Sticker maker function
- Matless cutting (cutting with mat also possible)
- Up to 11.7" (297 mm) width cutting area
- Bluetooth connectivity

Brother's intelligent auto blade

Bellissimo: with Brother's intelligent auto blade, just load your material and let the blade automatically detect thickness and cutting pressure. You can still fine tune cutting settings via the Artspira app.

100 free cutting designs just for you!

Connect your Bellissimo to Artspira and get 100 free, exclusive cutting designs that are only available to Bellissimo users. 60 cutting only designs, plus 40 Print and Cut designs (printer required additionally).

Cut, stick, draw and more!

Perforate cut, half cut, full cut and draw* with a variety of materials including vinyl, stickers, paper, card and felt. Perfect for sticker making, homewares, upcycling, accessories, card making, bookbinding and more!

*Pen holder to be purchased separately
