Send designs to your machine using Wi-Fi\*

Perfect to run the Brother embroidery apps

Store, search and send your embroidery designs to your machine with your very own Samsung tablet with the Toucan 2.

\*Compatible with Wi-Fi enabled Brother embroidery machines

Toucan is the only available mobile app for sending embroidery designs to Wi-Fi equipped Brother machines. Alternatively, send designs to a USB stick for connection to a Brother embroidery machine.

Sending designs to your machine has never been so simple with the Wi-Fi connectivity function. You can have all the information you need while you're embroidering, right beside you. Plus, the Samsung Galaxy Tab is perfect for watching all your sewing video tutorials, browsing the internet and checking emails.
