

As the name suggests, this simply stunning thread is ever so soft (unlike the harshness often found in other metallic threads).

Softlight Thread has been developed using Japanese Metallic Film. This soft, fine thread truly adds a new dimension to your embroidered masterpiece.

Depending on which shade you have chosen, the colour can change (creating soft and subtle highlights), when your design is viewed from different angles.

Each cone consists of 1500 metres of 40 weight thread. As there are 52 Stunning Shades from which to choose, you are sure to find just the right colours to bring your embroidery to life.

PLEASE NOTE: This chart is only a guide. Actual thread colours may vary slightly to those printed. Additionally some minor variance in dye lots may occur.
