

000087. Flower-Patterned Tumbler

Material

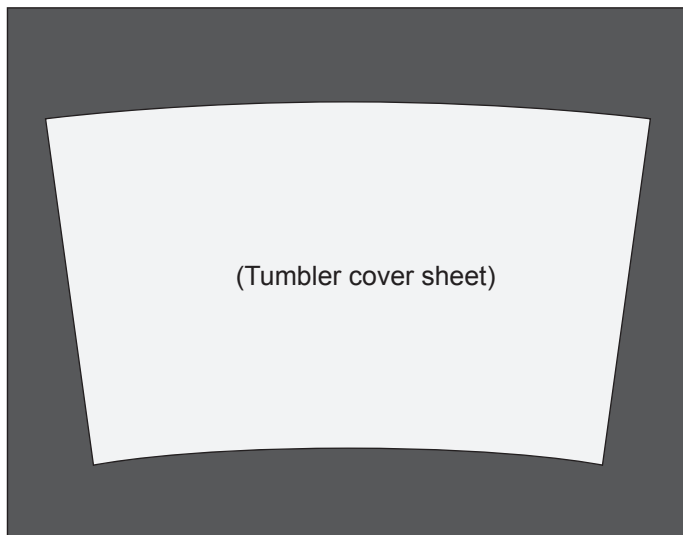

Paper – 3 kinds

Tumbler

Glue

Scanning mat 12" × 12"

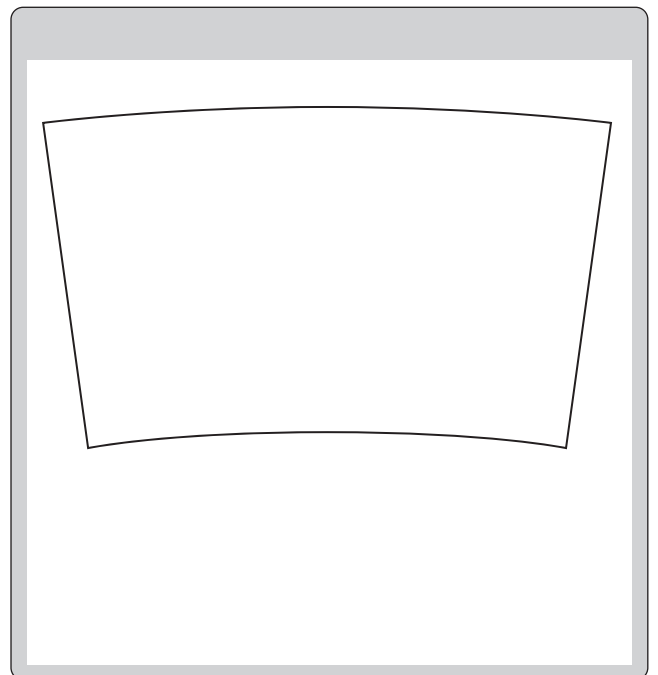

(1) Using “Scan to Cut Data” mode, scan the plain side of the cover attached to the tumbler to create cutting data. If the cover is white or a light color, place it on a dark-colored sheet of paper before scanning.

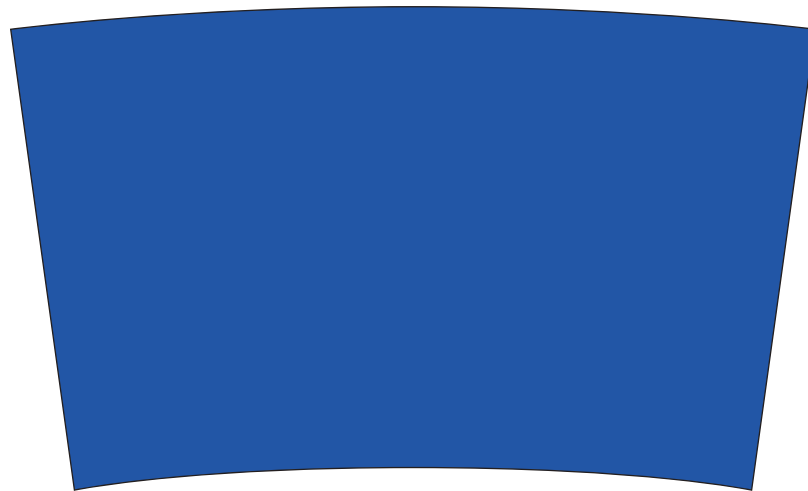

Scan

(Cutting data)

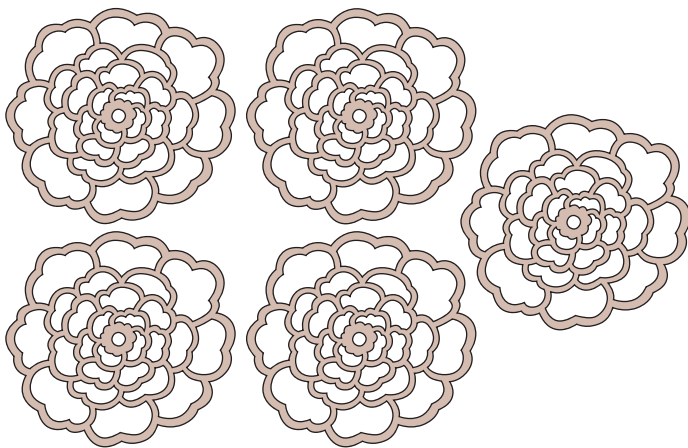

(2) Cut out the base.

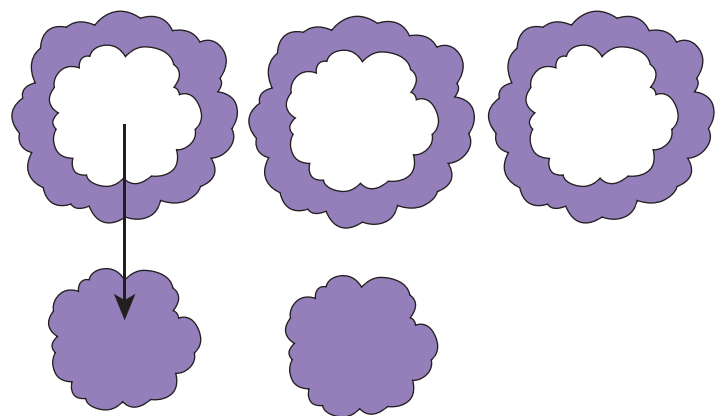

(3) Cut out the parts.

A-1

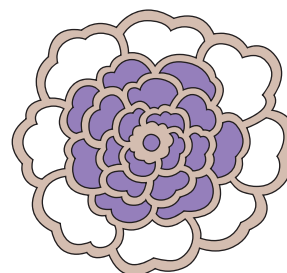

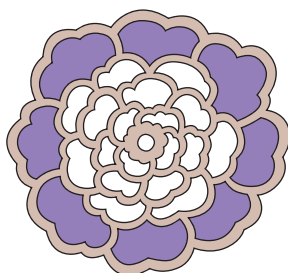

A-2

The inner cutouts will also be used.

(4) Stack A-1 and A-2, and then glue them together.

(5) Glue the pieces assembled in step (4) onto the cut-out base, as shown below, and then attach the cover to the tumbler.
