

000124. Halloween String Light Covers

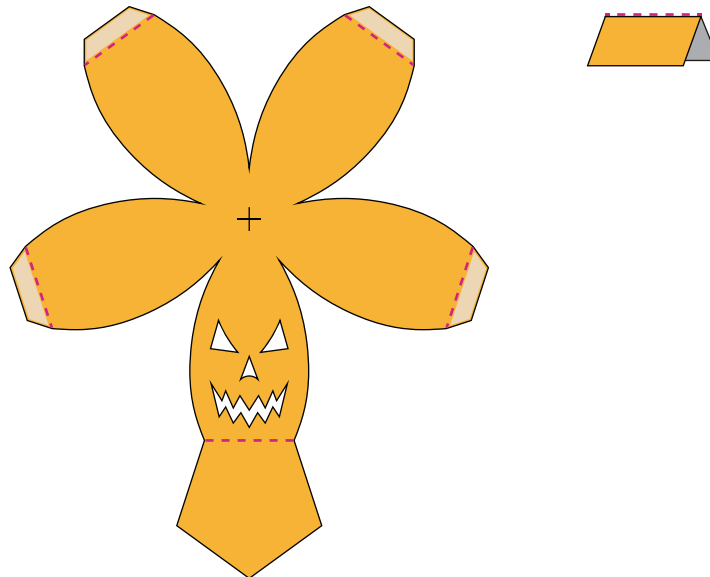

Material

- Paper/Cardstock – 3 kinds
- Double-sided tape
- Wire
- LED string light

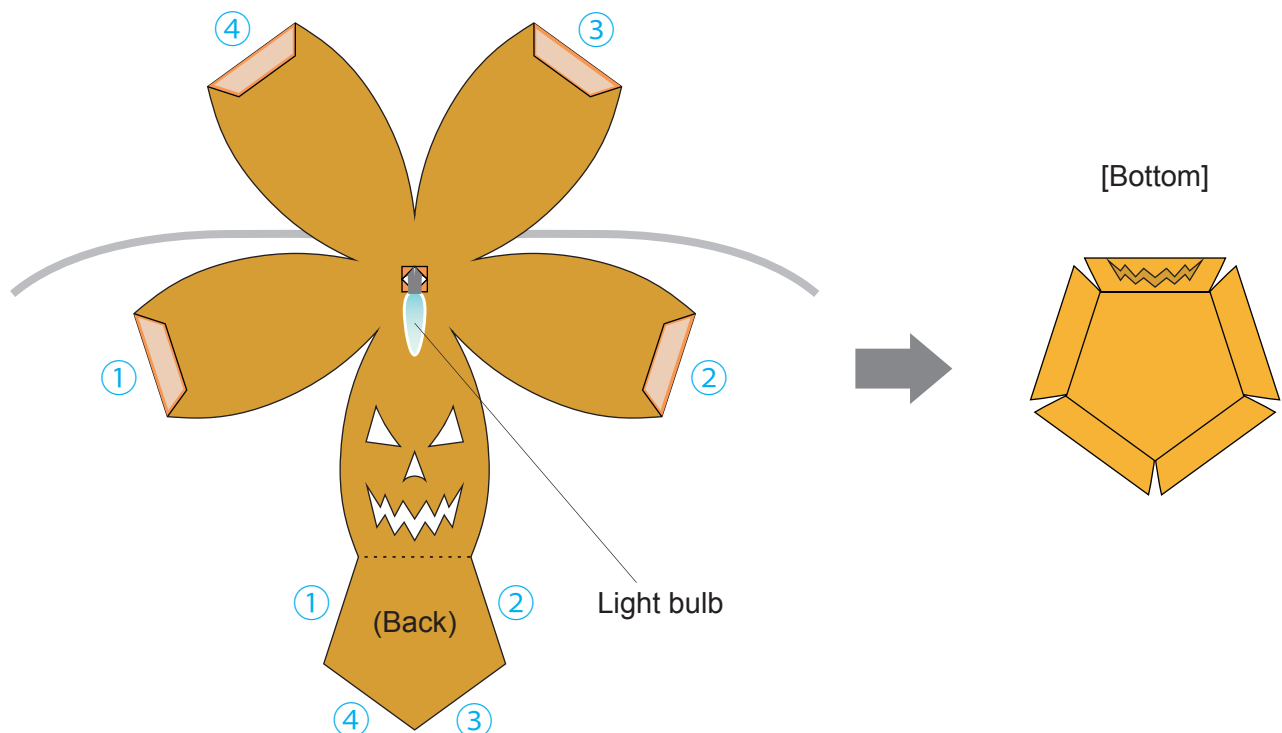

(1) Cut out parts A through E.

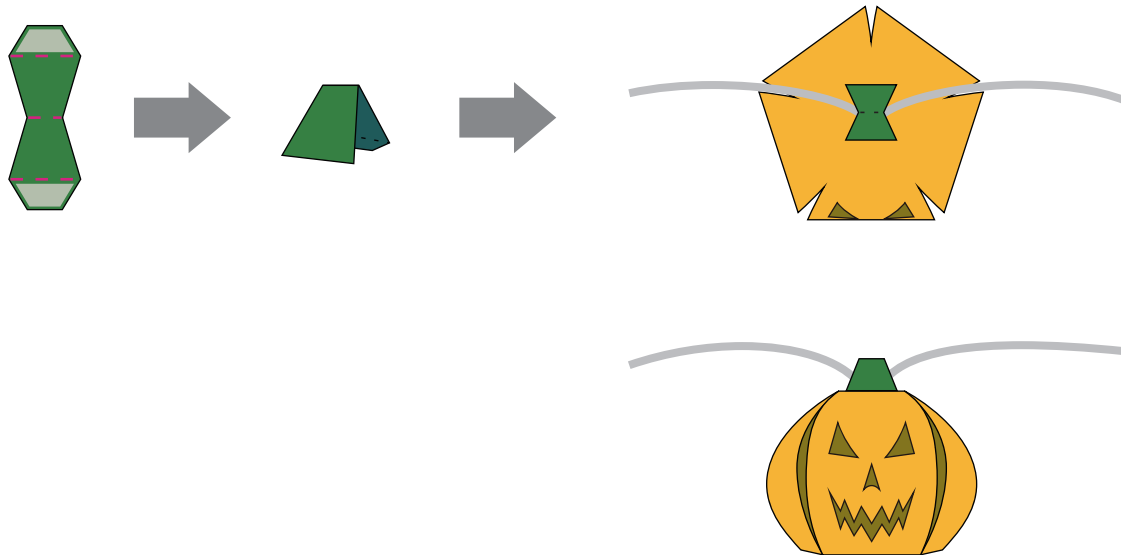

(2) Fold A, B, C and D along the dotted lines, and then attach double-sided tape to the tabs. Leave the backing on the tape.

(3) Insert the string light bulb through the cutout at the center, and then bend the sides and attach the tabs to the bottom.

(4) Fold E-3 along the dotted lines, and then glue it over the cutout, as shown below.

(5) Pass the wires through the holes in E-1 and E-2, and then wind them around the cord.
