

SEWING INSTRUCTIONS

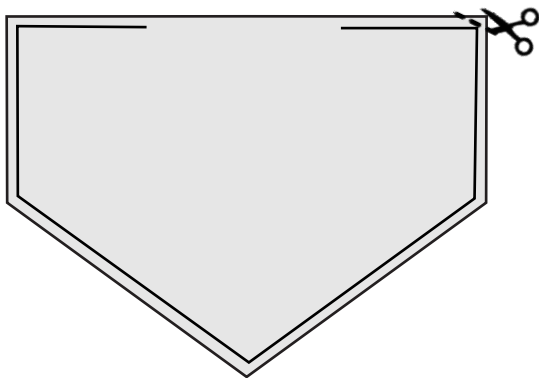

1. Embroider your fabric ensuring that you have enough room for your pattern to be placed over it.

2. Cut out your 2 fabric pieces

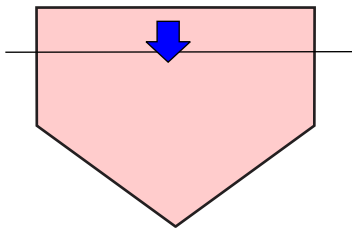

3. Place the right sides of the fabric together. Stitch 1/4" around the edges leaving a gap at the top of the bandanna, shown left.

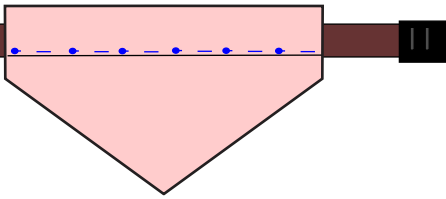

4. Cut the edges so that when you turn it inside out it sits nicely.

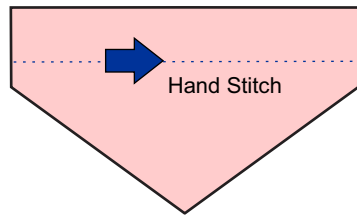

5. Fold this inside out and iron down flat.

- Using the fold line, fold the top down to the back of the bandanna. Pin along this line, ensuring that your open section of the bandanna is also folded inside.

Before you hand-stitch this down you can test to see if your dog's collar fits inside this gap as some collars have bulky buckles.

- Once you are happy that your collar fits inside this opening, hand-stitch this edge down using a slip stitch.

You have now completed your dog bandanna that will fit onto your dogs collar to stay nice and secure.
